About Me

Highly creative and multitalented graphic designer with the drive and determination to succeed and improve. Outstanding collaborative and interpersonal skills, a team player with exceptional communication skills. Able to work within a deadline driven environment as well as budget requirements.

Experience

Adidas Group Canada
Graphic Designer 2010 - Present

- Worked daily with Adobe Illustrator to create custom sports jersey design mock ups for a variety of large scale clients. Clients include schools and athletic associations such as: Queen's University, Mohawk College, CFL Combine, Canadian Olympic Commitee.
- Reproduce mock up design according to jersey template specifications. Great care and attention to detail is required ensure that the final product is faithful to the initial mock up.
- Each jersey is then created in order to match all team and player details. Factors such as jersey fabric, seam allowances, custom colour matching, league regulations/rules, and logo re-drawing must all be considered in the creation process.
- Worked with Adobe InDesign, Photoshop and Illustrator to design the bi-annual TEAM catalogue which is used to showcase new jersey designs, technologies and products.

Freelance Projects
Graphic Design, Web Design 2010 - Present

- Complete web development and design using HTML / CSS / PHP / JAVASCRIPT for Vlora Day Spa, an established business in the Stoney Creek area.
- Designed logo, menu, take out menu and business cards for Cubas latin restaurant.
- Completely re-designed existing website for My Healthy Touch Massage Therapy to provide a modern look and user friendly interface.
